

## Napa County Edits to Final MSR/SOI-Yountville

Page 1-3: Bullets 5 and 7 are duplicative. Please remove one.

Page 4-19 and page 4-24 – have references to CAL FIRE that should be changed to just County and;

Page 4-27 – First paragraph – “County Fire contracts with CAL FIRE...” should read “The County contracts with...”

Page 4-27 – second paragraph – “The Town of Yountville and the Veterans Home paid for building the Yountville...” is not correct, should be “The Town of Yountville contributed 40% towards the construction of a fire station, with the County contributing 60% on land owned by the Veteran’s Home...”

Page 4-27 – second paragraph – next sentence should be changed “...arrangement between Napa County/CAL FIRE,...” should say “arrangement between Napa County...”

Page 4-32 – second bullet implies that Veterans Home paid for construction –they contributed land but did not contribute towards construction costs.

Section 4 – throughout use of “pay”, “costs” and “construction” should be clarified.

7-3- Sentence that begins with “Measures J and P require a two-thirds vote....should read: “Measures J and P require a majority vote of the County’s citizens to *redesignate* land from agriculture to a different use. “

7-10- Third row, “The existing SOI is congruent...” we believe “contiguous” should replace “congruent.” County requests that document is searched for words “congruent” and “adjacent” and replaced with “contiguous.”

7-12- Second paragraph, reference to “County Planning Department” should be “County Planning Commission.”

7-16- Second paragraph—in addition to the appropriate cost analysis, environmental, plan for service, Count would like to see reference to a tax sharing agreement being reached.
